## A. Montana Department of Public Health and Human Services

Medicaid Provider - Rural Health Clinics and Federally Qualified Health Centers <a href="http://medicaidprovider.hhs.mt.gov/pdf/rhcandfqhc06292011.pdf">http://medicaidprovider.hhs.mt.gov/pdf/rhcandfqhc06292011.pdf</a>
Section 6.7, page 50 - Billing Procedures RHC and FQHC Replacement Page, June 2011

"A clinic visit is defined as a face-to-face encounter between a clinic patient and a clinic health care professional for the purpose of providing clinic core or other ambulatory services or billable incident-to services. Encounters with more than one clinic health care professional, and multiple encounters with the same clinic health care professional, on the same day at a single location constitute a single visit except when one of the following exists:

- After the first encounter, the patient suffers an additional illness or injury requiring additional diagnosis or treatment, or
- The patient has a medical visit and a mental health visit, or a medical visit and a dental visit, or a mental health visit and a dental visit."
